

PLEASE NOTE:

YOU MUST COMPLETE & RETURN AT LEAST PART 1 OF THIS SURVEY

CHEMICAL INVENTORY PAGE (PART 2) IS LAST PAGE OF BOOKLET

(FACING INSIDE BACK COVER)

- DO** Include or correct your FEIN number on the survey form.
- DO** Complete, sign and submit **PART 1** of the survey by **March 1, 2004** even if you had no environmental hazardous substances above thresholds to report on PART 2.
- DO** Remember, you are only required to list environmental hazardous substances on PART 2 (found facing the inside back cover of this booklet) that exceeded reporting thresholds in 2003.
- DO** Remember, answer all questions on the chemical inventory page(s) if you are required to report environmental hazardous substances.
- DO** Remember, that the substances listed on page 11 of this booklet are reportable on Part 2 of the survey if the 10,000 pound reporting threshold is exceeded. They have been incorporated in Table A to minimize confusion.

NOTE: For substances not listed on Table A and which meet the federal EPCRA reporting threshold of 10,000 pounds, use E312 for the substance number on the Part 2 of the CRTK survey.

- DO** Mail the **original** survey to NJDEP and mail a copy to your local Police and Fire Departments, the County Lead Agency (see page 48) and your Local Emergency Planning Committee (see pages 49-62) by March 1, 2004. The law states that you must **KEEP A COPY AT YOUR FACILITY and make it available upon request.**
- DO** Remember, submittal of the Community Right to Know Survey is required by law (N.J.S.A. 34:5A). **NOTE:** The CRTK survey can be submitted on-line, see the Check Out What's New page.
- DO** For assistance in completing this survey enroll in one of the free workshops (see page 2 for form).
- DO** **Remember, do not make any changes to the Facility-ID# pre-printed on the survey.** However, changes to the mailing address or the facility location shown on Part I can be made directly on the form.

COMPUTER GENERATED SURVEYS - Minimum Requirements

NOTE: The original Part 1 of the CRTK survey provided must be used. Failure to use the original Part 1 for processing will cause errors, resulting in your facility not receiving credit for submitting the CRTK survey.

- Computer generated chemical inventory pages must be identical in layout and appearance to the Department's Part 2 format and contain the same elements of information.
- If more than one chemical inventory page (Part 2) is used in a submission, the key to reporting codes must appear on at least page 1 of the chemical inventory pages (Part 2) submitted.
- Use 8 1/2" x 11" paper only.
- The proper Facility Identification Number (FAC ID) for the facility must be on Part 1 and every Part 2 of the survey submitted.

CRTK SURVEY WORKSHOPS

The Community Right to Know Program will be holding two free Community Right to Know workshops prior to the March 1, 2004 due date. The workshops will assist you in understanding what is needed to submit an accurate and complete survey. The workshops will be held on Tuesday, January 20, 2004 from 9:00 a.m. to 12:00 p.m. and Wednesday, February 4, 2004 from 1:00 p.m. to 4:00 p.m. at the following location:

Department of Environmental Protection
401 East State Street
1st Floor Hearing Room
Trenton, New Jersey 08625

If you plan to attend a workshop, you must register by completing and mailing the form below to the Community Right to Know program. Workshops will be canceled and rescheduled if state offices are closed or opening is delayed.

I am planning to attend the following workshop:

WORKSHOP DATE: _____

NAME: _____ PHONE: _____

EMPLOYER: _____

MAILING
ADDRESS: _____

E-MAIL ADDRESS: _____

MAIL TO: OFFICE OF POLLUTION PREVENTION & RIGHT TO KNOW
COMMUNITY RIGHT TO KNOW WORKSHOPS
PO BOX 405
TRENTON, NEW JERSEY 08625

1 INTRODUCTION

1.1 GENERAL INFORMATION

All recipients of this book must complete and return at least Part 1 of the survey, which is the first page of this booklet. The CRTK survey can be submitted on-line, see Check Out What's New page.

You should contact the New Jersey Department of Treasury directly, in writing, if there has been a change in the status of your business. The address is: New Jersey Department of Treasury, Division of Revenue, Client Registration Section, P.O. Box 252, Trenton, N.J. 08646-0252. If there are any changes to the mailing address or facility location shown on Part 1 of the survey, please make these changes directly on the form.

Part 2 of the Community Right to Know Survey can be found on the last page of this booklet facing the back cover. If, after reading the instructions, you determine that you must complete Part 2, simply remove that page from the book for completion and submittal with Part 1.

1.2 WHAT IS THE NEW JERSEY COMMUNITY RIGHT TO KNOW SURVEY?

The Community Right to Know Survey is an annual inventory of environmental hazardous substances which are stored, produced or used at a *place where business is conducted* (facility) in the State of New Jersey. **This annual report is required by state and federal laws.** The information collected is available to the public and to emergency responders such as police and fire departments. It is also used to supplement other regulatory programs within the state and to facilitate proper planning for a response to an emergency at a facility which may threaten the surrounding community or environment.

Common substances often associated with business activities may pose a hazard to human health and the environment. Therefore, inventory reporting is not limited to establishments engaged in heavy chemical use.

The Community Right to Know Survey consists of two parts: Part 1 is for facility information and Part 2 is a chemical inventory form for listing environmental hazardous substances or regulated reportable substances present at the facility. *Part 1 of the Community Right to Know Survey must be completed, signed and returned in order to declare whether or not any environmental hazardous substances were present at the facility during 2003.* Part 2 of the Community Right to Know Survey can be found on the last page of this booklet facing the back cover.

1.3 WHO MUST COMPLETE THE SURVEY?

The state and federal Community Right to Know (CRTK) laws have similar requirements. They include the reporting of chemical inventories and releases of hazardous substances to the environment. New Jersey employers who are engaged in certain types of business activities specified by the New Jersey Worker and Community Right to Know Act are required to complete and return a survey for each of their facility locations. These employers are identified by the North American Industry Classification System (NAICS) code assigned to them by the New Jersey Department of Labor (DOL). If an employer receives a survey reporting package in the mail, it is likely that the employer has been assigned one of the covered NAICS codes and, therefore, must report. This can be readily verified by comparing the number against those listed in Table C (NAICS codes of covered New Jersey employers) starting on page 45 of this guide.

Even if you don't have a covered NAICS code, you may still be required to complete this form under the federal Emergency Planning and Community Right to Know Act of 1986 (EPCRA). (See Section 1.5.)

Note: If you are not reporting any wages to DOL and have not been assigned a NAICS code, you may still be subject to reporting requirements. If you fall into this category, please call the Office of Pollution Prevention and Right to Know at (609) 292-6714 for further information.

The Office of Pollution Prevention and Right to Know assigns a facility identification number (FAC-ID) to each facility. The FAC-ID is the number found with the preprinted mailing address information on Part 1. You may inquire about your FAC-ID by contacting the office at (609) 292-6714.

If you have received a survey but do not have a facility located in New Jersey, or your business is engaged only in administrative activities in New Jersey, Part 1 of the survey must be returned with a brief written explanation. If your facility has ceased operations during the 2003 calendar year, you must report the environmental hazardous substances that were present at the facility at quantities that met or exceeded the reporting thresholds until the time of closing. Please also indicate in this case in Box C of the survey that your facility is closed.

1.4 WHEN MUST THE SURVEY BE SUBMITTED?

The survey must be completed and returned to the NJDEP and agencies listed in Section 3.1 by the March 1, 2004 reporting deadline. Failure to meet the deadline may subject employers to enforcement action and possible penalties.

1.5 WHAT MUST BE REPORTED?

Environmental hazardous substances reported on the survey are usually listed by chemical name, not by product or generic name. An employer should review appropriate Material Safety Data Sheets (MSDSs) to determine if any products stored, produced or used at the facility contain environmental hazardous substances. If MSDSs are not available, the employer should contact the manufacturer or supplier of the products to get that information.

Whether a hazardous substance must be reported is based on its *chemical name* and whether its quantity *met or exceeded a minimum quantity* (threshold) at any one time during the reporting year. For facilities regulated under the state law (those with covered NAICS codes), there are two categories of hazardous substances which must be reported on the CRTK Survey :

1. Environmental Hazardous Substances (EHSs) must be reported if they were present at the facility during 2003 at or above the thresholds. The Environmental Hazardous Substances are listed in Table A. **DO NOT REPORT ENVIRONMENTAL HAZARDOUS SUBSTANCES THAT WERE BELOW THRESHOLDS IN 2003. HOWEVER, YOU MUST STILL SUBMIT PART 1 OF THE SURVEY EVEN IF YOU DON'T EXCEED THE THRESHOLDS.**
2. Any product or substance for which an MSDS is required in accordance with the OSHA Hazard Communication Standard may need to be reported, if it was present at the facility in 2003 at 10,000 pounds or more at any one time, and has not been reported under number 1 above. This is a federal requirement under the Emergency Planning and Community Right to Know Act of 1986 (EPCRA). For more information on this requirement, call the Community Right to Know Program at (609) 292-6714. **For substances not listed on Table A, but meet the above federal requirements, use E312 for the substance number on Part 2 of the CRTK survey.**

Facilities with uncovered NAICS codes: New Jersey businesses whose NAICS codes do not appear in Table C may be required to complete the survey under Section 312 of the federal Emergency Planning and Community Right to Know Act of 1986 (EPCRA) if the facility owner/operator is required to maintain Material Safety Data Sheets (MSDSs) for hazardous substances in accordance with the OSHA Hazard Communication Standard, where quantities of these substances at the facility were at or above 10,000 pounds at any one time in 2003. **Also under EPCRA,** any substance listed in Table A with an asterisk (denoting it as an Extremely Hazardous Substance) must be reported on the survey if present at either 500 pounds or the designated Threshold Planning Quantity shown in Table A, whichever is less. In these cases, the completion of the CRTK survey replaces the federal forms (Tier I or II) required by Section 312 of EPCRA. For more information, call (609) 292-6714.

Release reporting

Facilities having certain NAICS codes may also be subject to release reporting requirements. Contact the EPCRA Hotline at (800) 424-9346 or the New Jersey Community Right to Know program at (609) 292-6714 for further information.

2 INSTRUCTIONS FOR COMPLETING THE SURVEY

2.1 BEFORE YOU START: GENERAL REQUIREMENTS

To insure that your submitted Community Right to Know Survey can be processed properly by the Department after it is received, the following directions must be followed:

- ❖ Use the current 2003 Community Right to Know Survey forms only. DO NOT use survey forms from a previous year. Outdated forms will be returned to the sender. Part 1 of the submitted survey must have an original signature and current date. **If you are submitting a computer printed survey, refer to the “Please Note” page at the beginning of this booklet for instructions.** Computer generated surveys that do not meet the specifications stated will be returned. Remember you can submit the CRTK survey on-line, see the Check Out What’s New page.
- ❖ Do not use a binder. All submittals are processed by sensitive high speed equipment. If you must submit your survey in a binder, do not punch holes through your survey in a manner which would destroy any information.
- ❖ Use 8 1/2" x 11" white paper only. Photocopies must be of good quality. Surveys on thermal fax machine paper are unacceptable because they cannot be processed.
- ❖ Do not send Material Safety Data Sheets (MSDSs). The MSDSs used to complete the survey should not be sent to the Department.
- ❖ Do not send a courtesy transmittal letter. However, a letter concerning a situation which affects reporting by the facility may be sent.
- ❖ Send only the ORIGINAL SURVEY to the Department. Make sure that copies also are mailed to the required local agencies and a copy is retained for your records.
- ❖ Do not send facility maps or emergency response plans to NJDEP with your survey.

2.2 THRESHOLD DETERMINATION

Before completing the survey, you must first determine if there were environmental hazardous substances at your facility during the reporting year in any quantity and whether these quantities met or exceeded reporting thresholds. To determine whether the threshold for any substance has been exceeded at any one time at a facility, accurate records of chemicals present in the facility during the year must be used. These may be sales, purchase, production, inventory, or a combination of these records, which will allow an accurate computation of maximum and average daily quantities of chemical substances at the facility.

For facilities in NAICS codes covered under the state law, you must compare your inventory list to Table A to determine if you had listed EHSs at your facility and if the quantities met or exceeded the thresholds in 2003. If no threshold is shown in Table A, the threshold is 500 pounds. However, some EHSs may have lower thresholds. You must check Table A to determine if a substance has a threshold planning quantity (TPQ) below 500 pounds. If it does, the lower number should be used as the threshold. Otherwise, the substances must be reported at the 500 pound threshold.

You must indicate in Part 1, Box B of the survey:

1. Whether there were any environmental hazardous substances at your facility in any quantity during the reporting year (question 1), and
2. Whether any environmental hazardous substances at your facility were above the reportable thresholds (question 2).

To answer these questions, you must determine the **maximum daily amount** that was present at the facility in 2003 for each environmental hazardous substance. **If the substance was on site for only one day the maximum inventory equals the daily inventory.** If the maximum daily amount exceeded 500 pounds or the TPQ, whichever is less, for a given EHS, it is reportable on the Community Right to Know Survey in all its occurrences at the facility, except if the exemptions described below apply.

The following environmental hazardous substances are exempt from reporting on the Community Right to Know Survey and should not be included in the threshold determination:

1. Environmental hazardous substances located in an approved Research and Development (R&D) laboratory. In order to obtain an R&D laboratory exemption, you must fill out a Research and Development Laboratory Exemption Application. Contact the Bureau at (609) 292-6714 to obtain this application. Please note that Research and Development laboratories include pilot plants but do NOT include quality assurance labs. (However, see Section 2.4 for a simplified method for reporting substances in quality assurance labs which have been reported on the survey for other locations of the facility.) The R&D laboratory exemption from state chemical inventory reporting does not apply to substances subject to reporting under Section 312 of EPCRA. These substances should be reported on the CRTK Survey with any reportable substances found in the non-R&D laboratory areas of the facility.
2. Substances which are an integral part of a facility structure or furnishings.
3. Personal property for the personal use of employees of a facility.
4. Ammunition when on the person of security personnel.
5. Except for Saran, PVC and Lopac, substances present as a solid in any manufactured item which has been formed to a specific shape or design during manufacture to the extent that exposure to any environmental hazardous substances does not occur under normal conditions of use.
6. Environmental hazardous substances comprising one (1) percent or less of a mixture, or 0.1 percent if the environmental hazardous substance is carcinogenic as defined at 29 CFR 1910.1200(d)4 of the federal Occupational Safety and Health Administration's hazard communications regulations.

When reviewing the ingredients of products used, stored or produced at your facility for the purposes of threshold determination, you must be sure to add all occurrences of the substance, unless the exemptions described above apply. For example, if toluene is present in paint, solvent, and adhesive at your facility, the amounts of toluene in each material must be totaled to determine if the threshold was exceeded. See examples

of threshold determinations beginning on page 14.

Note: Do not include EHSs in gasoline, diesel, new and used petroleum oil, or heating or fuel oil in your threshold determination. Gasoline, new and used petroleum oil, and heating or fuel oil must be reported only if their quantities exceeded 10,000 pounds at any one time in 2003. **However, if you have any quantity of these substances at your facility, you are considered a "user" of EHSs. Refer to Table A for the substance number, CAS and DOT numbers for reporting these substances.**

2.3 COMPLETING PART 1 OF THE SURVEY

Part 1 of the Community Right to Know Survey must be completed, signed, and returned in order to declare whether environmental hazardous substances were present at your facility during 2003. Part 1 contains general information about your business. A sample completed Part 1 of the survey can be found in Section 2.6. It is strongly recommended that you use this aid. Incomplete or unreadable surveys submitted cannot be processed and will be returned.

MAILING ADDRESS LABEL/BOX A

The addresses, as they appear on the CRTK Survey, reflect the mailing address and actual facility location as previously reported by you, or as reported by the New Jersey Department of Labor. If you have more than one New Jersey facility, a CRTK survey may have been mailed directly to those work sites. Therefore, **do not** copy the form for use by other facility locations without first contacting the Office of Pollution Prevention and Right to Know at (609) 292-6714. Identify yourself as a "multiple facility reporter" and ask for additional forms for your other locations.

The mailing address is located on the upper left corner of Part 1 and contains the current mailing address on record with the NJDEP and numbers at the top identifying your facility. Listed in order of appearance, the following three numbers appear above the mailing address:

New Jersey Employer Facility Identification Number (FAC-ID) 11 Digits

The physical location of the facility is in Box A. In order of appearance, the following two numbers are:

Federal Employer Identification Number (FEIN) 9 Digits

County/Municipal code 4 Digits

These numbers are unique identifiers for **each** facility location. If the mailing and physical location address information is incorrect, please correct the information directly on the survey. **Do not make any changes to the pre-printed FAC-ID number on the survey. Please note that Box A must contain all of the following information regarding the facility's complete physical location: street address, municipality, zip code and county. This information is mandatory. NOTE: Check the appropriate box if changing any information pre-printed in Box A. Use boxes to indicate the reason for changing the pre-printed location information: facility moved, additional facility or correction to location information.**

If you have more than one facility in New Jersey, **a separate survey must be completed and returned for each facility location, each with a unique New Jersey Employer Facility Identification Number.** If your facility location has changed from the location shown in Box A, then correct this address and check the appropriate box. If you have more than one facility in NJ, check to see if you have received other CRTK survey booklets for these locations. If you did not receive CRTK booklets for your other facility

locations, contact the Office of Pollution Prevention and Right to Know at (609) 292-6714. If the facility location is not printed on the label, please write it in and check the appropriate box.

If your company or location has been sold or closed, you must still complete the Community Right To Know Survey to reflect inventory during the reporting year up to the date of sale or closure. In this case, please indicate in Box C that the facility is closed.

BOX B: DECLARATION OF STATUS

For question 1, if you have determined after reading Sections 1.5 and 2.2 of this guide and reviewing Table A that environmental hazardous substances were present at the facility in any amount during 2003, darken the box marked **YES**. Otherwise, darken the **NO** box for questions 1 and 2. For question 2, darken **YES only if** there were environmental hazardous substances at your facility above the thresholds. Otherwise, darken **NO**. If you darkened **YES** to question 2, you must attach completed inventory page(s) (Part 2) to the survey. If the facility will be reporting environmental hazardous substances, make sure the facility location information and FAC-ID on all inventory pages matches the Part 1 information. Part 2 can be found on the last page of this booklet, facing the back cover.

If you darkened the NO box for either question, complete and sign the remainder of Part 1 and send it to the NJDEP and other agencies listed in Section 3.1. If your facility does not have environmental hazardous substances above reporting thresholds, do not send in a Part 2 with Part 1.

BOX C: NATURE OF BUSINESS

Briefly describe the *primary* function or operation of the facility, such as, "dyeing and finishing fabrics," "gasoline service station," "sales office," etc. **Also**, if there is no facility in New Jersey, the facility is out of business, or the operation is administrative functions only, please indicate in Box C.

BOX D: NUMBER OF EMPLOYEES

Enter the maximum number of workers at the facility at any one time during the 2003 reporting year. This includes unsalaried, hourly, leased and part-time workers as well as salaried, full-time workers. If an incorrect entry is shown, please make corrections on form.

BOX E: NUMBER OF FACILITIES

Enter the number of facility locations your company has in New Jersey. If an incorrect entry is shown, please make corrections on form.

BOX F: FEDERAL EMPLOYER IDENTIFICATION NUMBER (FEIN)

Enter the FEIN or the federal tax ID for the company, not your New Jersey tax number. Please verify that the pre-printed FEIN number is correct for your company. This is a critical field for correct processing of your survey. If the FEIN number shown is not correct, please cross-out the pre-printed number and write in the correct one for your facility.

BOX G: RESEARCH AND DEVELOPMENT LABORATORY EXEMPTION

If your facility has an area which is used primarily for research and development (R&D) activities, that area may be exempt from filing the chemical inventory pages of the survey (Part 2). If you wish to apply for an exemption for this area, a separately supplied R&D laboratory exemption application must first be completed and returned to the Department for review and approval. You may contact the Bureau at (609) 292-6714 for an R&D laboratory exemption application packet.

If your facility already has an approved R&D laboratory exemption, as evidenced by an approval letter from the NJDEP, and there have been no changes in the R&D portion of your facility, enter your R&D

exemption approval number to claim the exemption for the 2003 reporting year.

BOX H: FEDERAL REPORTERS

Check Box H if you are reporting any substance(s) present at the facility which met the reporting requirements of Section 312 of the federal Emergency Planning and Community Right to Know Act of 1986 (EPCRA), also known as Title III of the Superfund Amendments and Reauthorization Act (SARA). See page 5 for a description of the federal reporting requirements. **For substances not listed on Table A and which meet the federal requirements, use E312 for the substance number on Part 2 of the CRTK survey.**

BOX I: EMERGENCY FACILITY CONTACT

Provide the name, title and telephone number of the person assigned to be contacted in case of an emergency at the facility, such as a fire, explosion or spill. The facility telephone number is the one used to reach the contact person during the regular working day, and the emergency contact telephone number is the one used to reach the contact person after regular working hours. If an incorrect entry is shown, please make corrections on form.

BOX J: CERTIFICATION

Provide the name, title and telephone number of the authorized representative who will be signing the form. This individual must be someone who can be contacted to verify or clarify information that has been reported. This person is responsible for the accuracy of the report. **Unsigned survey forms will be returned as incomplete and may subject the facility to penalties.**

2.4 COMPLETING PART 2 OF THE SURVEY

The chemical inventory page (Part 2) of the survey must be completed and returned with the first page of the survey (Part 1) if you answered **YES** to Question 2 of Box B. Part 2 can be found on the last page of this booklet, facing the back cover. **All information on the chemical inventory page should be typewritten or printed clearly and legibly. The original form with preprinted facility identification information must be used. You must photocopy this form if additional pages for your submittal are needed.** To provide the information necessary on the chemical inventory page you may need Material Safety Data Sheets (MSDSs) for information about components of products at your facility. These are available from the manufacturer or distributor. However, do not send copies of the MSDSs with your survey submittal.

FACILITY LOCATION

Please correct any inaccurate preprinted information on this label. Make sure the address matches the one shown in Box A on Part 1. If the label on Part 2 is missing, fill in the information in the space provided. If the information on the label is complete and correct, do not make any changes.

PAGE NUMBERING

The first Part 2 form of the Community Right to Know Survey is considered page 1. Please number the substance pages accordingly.

SUBSTANCE DESCRIPTION

SUBSTANCE NAME

Provide the chemical name of the substance you are reporting. You may also indicate the product which contains the reported substance in parenthesis or in the margin. **Under N.J.A.C. 7:1G, environmental hazardous substances in mixtures such as gasoline or new and used petroleum oil may be reported**

under the following generic categories (Note: these have been incorporated into Table A for easy reference):

<u>Substance</u>	<u>Substance Number</u>	<u>CAS Number</u>	<u>DOT Number</u>
Diesel/Fuel or #2 Heating Oil	2444	68476-34-6	1993
Gasoline	0957	8006-61-9	1203
Kerosene	1091	8008-20-6	1223
Petroleum Oil/Motor Oil	2651	_____	1270
Used Petroleum Oil	2851	_____	1270

These substances must be reported on Part 2 if they were present at your facility in 2003 in quantities at or above 10,000 pounds at any one time. Please use the appropriate codes as indicated above.

SUBSTANCE NUMBER

Every substance on the NJ Environmental Hazardous Substance List (Table A) is shown with an assigned substance number. Enter this number here.

CAS NUMBER

Provide the Chemical Abstract Service (CAS) number if available. This number will appear in Table A of this guide and should match that given on an MSDS. When reporting any of the chemical categories, enter the appropriate category code from Table A (these begin with "N," for example N420 for lead compounds).

DOT NUMBER

Provide the U.S. Department of Transportation (DOT) number found in Table A. If the substance you are reporting has no DOT number, leave the space blank.

PURE / MIXTURE

When reporting any pure substance that is not a mixture or a component of a mixture, check "pure." When reporting any component of a mixture, check "mixture." Also check "mixture" if you are not reporting a specific chemical, but are reporting an entire product under Section 312 of EPCRA. Gasoline and oils should be reported as mixtures.

STATE

Check the appropriate description for the physical state of the substance you are reporting- solid, liquid, or gas.

TRADE SECRET

Mark this box if you are making a trade secret claim for a substance. If the substance is reportable under the New Jersey Worker and Community Right to Know Act, call the Office of Pollution Prevention and Right to Know at (609) 292-6714 to request a trade secret claim form.

Also, a trade secret claim and supporting documentation must be sent to the U.S. Environmental Protection Agency (USEPA) if a substance present at the facility meets or exceeds the 10,000 pound threshold or if the substance is an EPCRA Section 302 Extremely Hazardous Substance above the TPQ, or 500 pounds, whichever is less. The federal trade secret claims regulations can be found in Title 40 of the Code of Federal Regulations, at Part 350 (40 CFR 350). For more information about the USEPA's trade secret regulations, call (800) 424-9346.

If information is claimed as a trade secret, confidential or proprietary on a Material Safety Data Sheet (MSDS) for a product that you use or store, but do not produce, DO NOT mark this box. HAZARDS

The USEPA has established five (5) hazard categories for reportable substances (see Figure 1 below). Review the MSDS to determine the hazard(s) of the product, which contains the substance you are reporting, and check all hazards that apply. Use the hazards of the entire product to determine which hazards to check, rather than the hazards of the individual components of the product. If you are using an MSDS as the basis of information for your reporting and it lists no hazards, check "none per MSDS."

<u>HAZARD CATEGORY</u>	Includes descriptions which say:
Fire Hazard	"flammable," "combustible liquid," "oxidizer," "pyrophoric"
Sudden Release of Pressure	"compressed gas," "explosive"
Reactive	"unstable," "water reactive," "organic peroxide"
Immediate (acute) Health hazard	"highly toxic," "toxic," "irritant," "sensitizer," "corrosive," or causes an adverse effect to a target organ which usually occurs rapidly as a result of short term exposure and is of short duration.
Delayed (chronic) Health hazard	"carcinogen" or causes an adverse effect to a target organ which generally occurs as a result of long term exposure and is of long duration.

FIGURE 1: Hazard Categories

INVENTORY INFORMATION

CONTAINER TYPE

Provide the corresponding code (see Table B, page 44 or the key at the bottom of Part 2 of the CRTK Survey) for the type of container in which the reportable substance is stored. If a hazardous substance is present in different containers, provide a separate entry for each type of storage container, giving the corresponding codes. For example, if a solvent containing toluene is stored in both metal drums and glass bottles, two separate entries must be made for toluene. It is not necessary to report more than the four most frequently used container types for any one EHS.

MAXIMUM DAILY INVENTORY

For each environmental hazardous substance you are reporting, enter the range code from Table B on page 44 or the key at the bottom of Part 2 of the CRTK Survey representing the maximum number of pounds present on a single day at the facility. **If the substance was on site for only one day the maximum inventory equals the daily inventory.** If you are reporting the substance as an ingredient of a mixture, only report the weight of the ingredient.

See examples of maximum daily inventory estimates on page 16.

AVERAGE DAILY INVENTORY

For each environmental hazardous substance you are reporting, you must enter the inventory range code from Table B on page 44 or the key at the bottom of Part 2 of the CRTK Survey representing the average daily number of pounds present during the year. If the EHS was on site every day (365 days), total the daily amounts (you should have 365 readings) and divide by 365. If you do not have daily inventories available, you may total all the daily inventory weights that are available and divide by the number of days the inventory was taken. Please see examples of average daily inventory estimates on page 17.

NUMBER OF DAYS ON SITE

Enter the actual number of days that the hazardous substance was present at the facility in 2003. There are no codes for this entry. In many instances an environmental hazardous substance is used, stored or produced daily in the business operation (365 days).

STORAGE TEMPERATURE AND PRESSURE

For each environmental hazardous substance that you are reporting, provide a code (see Table B page 44 or the key at the bottom of Part 2 of the CRTK Survey) for the "Pressure" and a code for the "Temperature" at which the substance is stored. If a substance is stored at room temperature and pressure, use the code for "ambient." If the substance is in a pressurized container, use the code for "greater than ambient" pressure, etc. If the gas cools as a result of storage, but the storage vessel is not actually cooled, the storage temperature should be reported as ambient.

STORAGE LOCATION(S)

For each environmental hazardous substance that you are reporting, provide a brief description of where it is found at your facility, such as: "rear of first floor," "loading dock," "tank farm," "shelves, right front," "storage area for flammables," etc. If the substance is found commonly throughout the facility or a majority of the facility area in one type of container, you may report it as "ubiquitous" or "plant-wide." When you provide location descriptions, assume that an emergency responder does not have a detailed layout of your facility.

Reporting Hazardous Wastes

If an EHS was present at the facility at reporting thresholds, quantities of the EHS in hazardous wastes must be included in Part 2. You may combine the reporting of non-wastes and wastes if they are stored in the same type of container. For example, if you are storing a non-waste liquid in a drum containing 50% toluene and also have hazardous wastes containing toluene stored in a drum, the toluene may be reported on single line as toluene stored as a mixture in a drum. Combine the weights of the non-waste and waste quantities to arrive at the correct inventory code. If several EHSs are contained in a hazardous waste, you may report the mixture as "hazardous waste," using substance number 2461 and DOT number 9189. In this case, no CAS number should be given. Note: Do not include quantities of hazardous wastes in your threshold determination.

Multiple Listings of an EHS

If more than one container type, storage condition or descriptor type (i.e. pure/mixture or solid, liquid or gas) was present for an EHS, then more than one line (that is, multiple entries) must be filled in on the inventory form. Also, if the reportable EHS occurs in products with different hazard categories, the EHS should be reported on separate lines for each of the hazards.

Quality Assurance Labs

If you have a quality assurance laboratory, which has small samples of substances that are reported elsewhere on Part 2, you may list the chemicals in the lab as a single item "samples of reported substances." Leave all other entries blank except container type, location and substance number. If all samples are in the same container (like glass bottles or plastic jars), enter the code for that container type. If two or more container types are present, enter OT for "other" and list the container types in the margin. For substance number, enter "3628." This entry should be the last entry on the survey form. See Part 2 form sample on page 19.

2.5 HOW TO MAKE THRESHOLD AND INVENTORY RANGE DETERMINATIONS

Use the following examples to help you estimate the quantities of environmental hazardous substances (EHS) that were present at your facility. You will need the MSDSs for the products or chemicals used, stored or manufactured. Since there are a variety of methods that may be applied to estimating the threshold and inventory quantities of the products and EHSs, you may round off estimated quantities to whole numbers and not deal with decimal places, as has been done in some of the examples below. That means for decimal numbers of 0.5 or greater, you may round up to the next nearest whole number, and for decimal numbers less than 0.5, you may round down to the next nearest whole number. For example, if you estimate that you have 12.4 pounds of toluene in paint, assume that you have 12 pounds, and if you estimate that you have 19.5 pounds of toluene in solvent, assume that you have 20 pounds.

I. Threshold Determinations

To know if an EHS was present at your facility in quantities that met or exceeded the threshold, you must determine all sources of the EHS and figure out the quantities present in POUNDS.

EXAMPLE 1 (solids): Company A has 2,000 pounds (lbs) of a solid adhesive containing 5% (0.05) toluene as indicated on the MSDS. How much toluene do they have?

pounds of product H % of EHS = pounds of EHS
2,000 pounds H 0.05 toluene (per MSDS) = 100 pounds of toluene

EXAMPLE 2 (pure liquids): You must convert gallons to pounds. Company B has a 5,000 gallon tank filled with methyl ethyl ketone. What is the weight of the methyl ethyl ketone?

gallons of EHS H density (pounds/gallon from MSDS) = pounds of EHS

5,000 gallons H 6.6 pounds/gallon = 33,000 pounds of methyl ethyl ketone

EXAMPLE 3 (liquids - mixtures): Company C has 10 gallons of paint containing 15% (0.15) toluene and 15 gallons of solvent containing 20% (0.20) toluene. What is the total weight of the toluene?

gallons of product H density of product (pounds/gallon from MSDS) H % of EHS
= pounds of EHS

PAINT: gallons of product H density of product = pounds of product
10 gallons of paint H 8.3 pounds/gallon = 83 pounds of paint (see note #2)

pounds of product H % of EHS = pounds of EHS
83 pounds of paint H 0.15 (toluene) = 12 pounds of toluene in paint

SOLVENT: 15 gallons solvent H 6.5 pounds/gallon (from MSDS) = 98 pounds of solvent
pounds of product H % of EHS = pounds of EHS
98 pounds of solvent H 0.20 (toluene) = 20 pounds of toluene in solvent

To determine if the total quantity of toluene exceeds the reporting threshold, add the quantities of toluene:

12 pounds + 20 pounds = 32 pounds total toluene (below threshold)

Note: 1) If the specific gravity of product is listed instead of density, you can get density by multiplying the specific gravity by 8.3 pounds/gallon (density of water):
Specific gravity H 8.3 pounds/gallon = density of product (pounds/gallon).
2) If the specific gravity and the density are not found on the MSDS, use 8.3 pounds/gallon to estimate weight.

EXAMPLE 4 (liquids - mixtures): Company D has 120 gallons of a mixture containing 40% (0.40) benzene. The MSDS for the product indicates the specific gravity of the product is 0.96. How much benzene is present in the mixture?

gallons of product H density = pounds of product
density = specific gravity H 8.3 pounds/gallon
0.96 H 8.3 pounds/gallon = 7.9 pounds/gallon
120 gallons H 7.9 pounds/gallon = 948 pounds of product
pounds of product H % of EHS = pounds of EHS
948 pounds H 0.40 (benzene) = 379 pounds of benzene

II. Maximum Daily Inventory

The same formulas are used to determine the maximum daily inventory of an EHS. Enter this as a Range Code (in pounds).

EXAMPLE 5 (solids): Company E had a maximum quantity of lead solder of 15,000 pounds. The MSDS for the solder indicated that it contained 50% (0.50) lead. How much lead was contained in the solder?

pounds of product H % of EHS = pounds of EHS
15,000 pounds solder H 0.50 (lead) = 7,500 pounds of lead
= Range Code 13 (see chart on page 44)

EXAMPLE 6 (pure liquids): Company F has a 500 gallon tank of toluene. The MSDS indicates

toluene has a specific gravity of 0.9. What is the weight of the toluene?

gallons of EHS \times density (pounds/gallon) = pounds of EHS

density = specific gravity \times 8.3 pounds/gallon

0.9 \times 8.3 pounds/gallon = 7.4 pounds/gallon

500 gallons \times 7.4 pounds/gallon = 3,700 pounds of toluene = Range Code 13

EXAMPLE 7 (liquids - mixtures): Company G has 150 gallons of metal cleaner. The MSDS lists xylene as an ingredient ranging between 15% (0.15) and 25% (0.25) of the mixture. Using 20% (0.20) as the midpoint of the range, what was the maximum daily inventory of the xylene?

gallons of product \times density of product (pounds/gallon from MSDS) = pounds of product

150 gallons \times 9.2 pounds/gallon (from MSDS) = 1,380 pounds of metal cleaner

pounds of product \times % of EHS = pounds of EHS

1,380 pounds cleaner \times 0.20 % xylene (midpoint of range) = 276 pounds xylene
= Range Code 12

EXAMPLE 8 (gases): You must convert cubic feet to pounds (use conversion table below for the more commonly reported gases).

Company H stores 2,000 cubic feet of methane in liquid form and stores chlorine as a gas in five 1,000 cubic feet cylinders. What is the maximum daily inventory of each EHS?

METHANE: cubic feet (ft³) of liquid \times conversion factor (from table) = pounds of gas

2,000 ft³ methane \times 26.3 pounds/ft³ (table) = 52,600 pounds of methane (liquid)

CHLORINE: cubic feet (ft³) of gas \times conversion factor (from table) = pounds of gas

1,000 ft³/cylinder \times 5 cylinders = 5,000 ft³ of chlorine gas

5,000 ft³ \times 0.200 pounds/ft³ (table) = 1,000 pounds of chlorine gas

GAS CONVERSION TABLE

<u>GAS</u>	<u>lbs/ft³</u> <u>(stored as gas)</u>	<u>lbs/ft³</u> <u>(stored as liquid)</u>
Acetylene	.068	24.0
Ammonia	.048	38.0
Chlorine	.200	87.7
Dichlorodifluoromethane (Freon 12)	.329	82.7
Chlorodifluoromethane (Freon 22)	.461	75.5

Hydrogen	.005	4.28
Methane	.043	26.3
Propane	.155	36.0
1,1,2 Trichloro-1,1,2 trifluoroethane (Freon 113)	.231	97.7

Note: Values given are approximate for ambient (room) temperature. Consult the MSDS or your supplier for actual values if gas is stored at higher or lower temperatures.

III. Average Daily Inventory

To determine the average daily inventory of an EHS, total the daily inventory weights of the EHS and divide by the number of days the inventory was present on site. If the inventory was on site and inventoried everyday of the year (365 days), total the daily amounts and divide by 365.

EXAMPLE 9 (inventoried daily): Company J has friable asbestos. The sum of the inventories taken daily (365 readings) totaled 134,967 pounds. What is the daily average inventory?

total of daily inventories) number of days inventories taken = average daily inventory
 134,967 pounds) 365 = 370 pounds/day = Range Code 12

EXAMPLE 10: Company K is a landscaper using parathion, which was inventoried six times. What was the average daily inventory if the inventory values for the times it was taken were 1,500 pounds, 870 pounds, 640 pounds, 535 pounds, 120 pounds and 50 pounds?

total inventory amounts) number of days inventories taken
 1,500 + 870 + 640 + 535 + 120 + 50 pounds = 3,715 pounds
 3715 pounds) 6 = 619 pounds/day = Range Code 12

Page not included in on-line version

2.7 FREQUENTLY ASKED QUESTIONS AND TIPS FOR COMPLETION OF SURVEY

QUESTION: MY COMPANY IS OUT OF BUSINESS. DO I HAVE TO COMPLETE THE SURVEY?

ANSWER: Yes. If the business was active at any time during the reporting year, the survey must be completed. The date of company closure, sale, or dissolution should be included in Box C of the Community Right to Know Survey.

QUESTION: MY COMPANY HAS BEEN CLOSED FOR YEARS. WHY DO YOU KEEP SENDING ME SURVEYS?

ANSWER: It is possible that the New Jersey Department of Labor (NJDOL) or Department of Treasury has not closed your company's accounts due to outstanding payments or failure to file a closure form. Please return the survey indicating the date your company closed and contact the New Jersey Department of Treasury, in writing, at: New Jersey Department of Treasury, Division of Revenue, Client Registration Section, P.O. Box 252, Trenton, NJ 08646-0252.

QUESTION: WHAT IS NAICS? WHAT IS C/M?

ANSWER: The NAICS system replaced the Standard Industrial Classification (SIC) code system. NAICS stands for North American Industry Classification System and identifies your business activity using a five or six digit number assigned by the New Jersey Department of Labor. The C/M is a 4 digit code which identifies the county and municipality, the first two digits identify the county and the second two the municipality.

QUESTION: WHY DID I GET THIS SURVEY?

ANSWER: Your business activity has been identified as being covered under the New Jersey Worker and Community Right to Know Act, based on your Standard Industrial Classification. The North American Industry Classification System (NAICS) has replaced the SIC code system. It doesn't matter how many or few employees you have at your facility, you must complete the survey and send it to all the appropriate agencies.

QUESTION: I THINK THE NORTH AMERICAN INDUSTRY CLASSIFICATION SYSTEM (NAICS) CODE ASSIGNED TO MY BUSINESS IS WRONG. CAN IT BE CHANGED?

ANSWER: The NAICS code was assigned by the New Jersey Department of Labor based on the business activity description that was given. If the activity has changed or you feel that the code is inaccurate, please call the bureau at 609-292-6714.

QUESTION: IF I DON'T HAVE ANY ENVIRONMENTAL HAZARDOUS SUBSTANCES, DO I HAVE TO COMPLETE THIS SURVEY?

ANSWER: Yes. If it is in a covered NAICS code, even a business with no environmental hazardous substances must complete Part 1 and send copies to all the designated agencies.

QUESTION: WHAT IS THE FAC ID?

ANSWER: FAC-ID stands for New Jersey Employer Facility Identification Number. It is the 11-digit number found on the mailing label above the name of your company.

- QUESTION: DO I HAVE TO REPORT THE SULFURIC ACID AND/OR LEAD IN BATTERIES PRESENT AT MY FACILITY?
- ANSWER: If the aggregate amount of lead or sulfuric acid exceeds 500 pounds at your facility, then these substances must be reported on the CRTK survey. This applies to both industrial and commercial batteries. The batteries in employee and company vehicles are exempt from reporting.
- QUESTION: MY BUSINESS HAS MORE THAN ONE LOCATION. HOW MANY SURVEYS DO I NEED TO FILL OUT?
- ANSWER: There must be a completed survey for each location. If you did not receive a survey for each location, call the Office of Pollution Prevention and Right to Know at (609) 292-6714.
- QUESTION: HOW DO I KNOW IF I HAVE AN ENVIRONMENTAL HAZARDOUS SUBSTANCE?
- ANSWER: Compare your facility inventory with the environmental hazardous substance list (Table A). For products, compare the ingredients listed on the material safety data sheets (MSDSs) to Table A.
- QUESTION: WHAT IS AN R&D LABORATORY EXEMPTION?
- ANSWER: Specially designated areas that are primarily dedicated to research and development (R&D) or pilot plant activities are exempt from reporting their environmental hazardous substances on the Community Right to Know Survey. Facilities must show the Department that the specially designated areas are under the direct supervision of a technically qualified person and that a communications program has been established with the local fire department. Applications for R&D laboratory exemptions are available by calling (609) 292-6714.
- QUESTION: MAY I REPORT BY PRODUCT?
- ANSWER: No, except if the product does not contain any reportable EHSs, but is reportable under Section 312 of EPCRA. (See page 5 in this booklet.) However, you may group chemicals in the report by product.
- QUESTION: MY COMPANY HAS CLEANERS AND OTHER PRODUCTS THAT CONTAIN TOLUENE. THE TOTAL WEIGHT OF THE TOLUENE EXCEEDS THE REPORTING THRESHOLD. HOW DO I REPORT THIS TOLUENE IF THE PRODUCTS ARE STORED IN AEROSOL CANS, STEEL DRUMS, AND PLASTIC JUGS?
- ANSWER: Because reporting is by container type, you must report the toluene three times, once for every container type in which it is found. All locations of the toluene for each container type should be listed.
- QUESTION: MY LABORATORY CONTAINS SMALL QUANTITY SAMPLES OF EVERY EHS FOUND AT MY FACILITY. DO I HAVE TO REPORT THE SAMPLES OF EACH EHS INDIVIDUALLY?
- ANSWER: No, report all of these samples on one line using "samples of reported substances" on the "Name" line. Leave all other entries blank except for location, container type, and substance number. If all samples are in the same type of container (like a glass bottle or plastic jars), enter the code for that container type. If two or more container types are present, enter OT for "other" and list the container types in the margin. For substance number, enter "3628." See sample Part 2 form on page 19.

QUESTION: WHERE DO I GET MATERIAL SAFETY DATA SHEETS (MSDSs) FOR THE CHEMICALS AND PRODUCTS AT MY PLANT?

ANSWER: You can get the MSDSs from your product supplier or directly from the manufacturer. The container label should have the name and telephone number of the manufacturer.

QUESTION: MY FACILITY STORES AMMONIA IN BOTH ANHYDROUS AND AQUEOUS FORMS. HOW DO I DETERMINE IF THE REPORTING THRESHOLD IS EXCEEDED?

ANSWER: The reportable quantity for anhydrous ammonia is based upon 100% of the anhydrous ammonia. The reportable quantity for aqueous ammonia is the ammonia equivalent weight for concentrations of 20% or greater. That is, only consider solutions/mixtures with concentrations of ammonia that are at or above 20%. For example, do not consider a 15% ammonia solution, but do account for a 25% ammonia solution. Once you have determined that the solution/mixture must be accounted for, determine whether you exceed the threshold quantity. In this case, consider only the weight of the ammonia in the solution/mixture towards the threshold quantity. **Example:** The threshold quantity for ammonia is 500 pounds. If you have more than 2,500 pounds of a 20% ammonia solution, then you have more than 500 pounds of ammonia in the solution and would have more than the threshold quantity.

TIPS FOR COMPLETION OF SURVEY

1. MAKE SURE SURVEY IS SIGNED AND THAT YOUR FEIN NUMBER IS CORRECT.
2. READ ALL INSTRUCTIONS CAREFULLY.
3. USE ONLY THE FORMS ISSUED TO YOU BY THE DEPARTMENT. Only the survey forms that appear in this book may be used, or a computer generated facsimile of Part 2 (see the "Please Note" page at the beginning of the booklet). You must submit the Part 1 form that appears in this booklet. **You can submit the CRTK Survey on-line. See the "Check out What's New" page.**
4. USE THE REPORTING CODES PROVIDED FOR INVENTORY, CONTAINER, TEMPERATURE AND PRESSURE. For example, instead of 15,000 pounds, code "14" should be used.
5. MAKE SURE EACH FACILITY LOCATION RECEIVES A SURVEY. If one of your facility locations did not receive a survey, call the Office at (609) 292-6714 to obtain the necessary forms. Do not use the same form for more than one location.
6. REVIEW ALL EXAMPLES PROVIDED. The survey booklet contains examples and guidance to assist you in completing your survey.
7. NUMBER ALL INVENTORY PAGES. Consistency in numbering inventory pages (Part 2) is a must. Please follow the system described on page 11, i.e., 1 of 5, 2 of 5, 3 of 5, etc.
8. PROVIDE COMPLETE INFORMATION ON INVENTORY PAGES. For processing your survey it is imperative that all inventory pages are complete and accurate. Be sure to complete the check-off boxes for pure/mixture and hazards and provide a location for each substance reported.
9. PROVIDE YOUR EMPLOYER FACILITY IDENTIFICATION NUMBER (FAC ID) ON ALL PAGES. The FAC-ID identifies your company. Please make sure this number is on every page of your report.
10. SUBMIT LEGIBLE FORMS. We must be able to read and process your submittal. If the form is not typed, print neatly using a black fine point pen.

3 SUBMITTING THE COMMUNITY RIGHT TO KNOW SURVEY

YOU CAN SUBMIT YOUR SURVEY ON-LINE!! SEE THE CHECK OUT WHAT'S NEW PAGE

3.1 WHO SHOULD RECEIVE YOUR COMPLETED SURVEY BY MAIL?

After completing the survey make (5) copies for distribution* as follows:

Original - Send the signed original to the NJDEP. (The mailing address is also at the lower left hand corner of Part 1 of the survey.)

NJDEP
OFFICE OF POLLUTION PREVENTION AND RIGHT TO KNOW
PO BOX 405
TRENTON, NJ 08625-0405

The Regulations (N.J.A.C. 7:1G-5.1) state that YOU must distribute copies as follows:

- Copy 1 -** Send directly to your local police department
- Copy 2 -** Send directly to your local fire department
- Copy 3 -** Send directly to your County Right to Know Lead Agency. (Address listed in Appendix 1.)
- Copy 4 -** Send directly to your Local Emergency Planning Committee. (Address listed in Appendix 2.)
- Copy 5 -** Keep a copy for your files. You are required to keep a copy at your facility for inspection by state and local enforcement personnel. Employees at your facility must be provided access to the copy of the survey kept at your facility. It is also important that you keep a copy to help you update future surveys. Failure to keep a copy at the facility and distribute copies as described above will lead to enforcement actions.

*** Note: It is the responsibility of the employer to photocopy the original survey and distribute copies 1 through 4 (by mail or other delivery) to the appropriate organizations listed above. Do not send these photocopies to the Department.**

3.2 COMMUNITY RIGHT TO KNOW ENFORCEMENT

The Department of Environmental Protection performs random and unscheduled inspections of facilities subject to the provisions of the New Jersey Worker and Community Right to Know Act. The purpose of an inspection is to review the facility's Community Right to Know Survey and validate the accuracy of the information reported.

During the inspection, the inspector will ask to examine the facility's files and review its Community Right to Know information, chemical inventory lists, and Material Safety Data Sheets. Penalties may be imposed if the information reported on the survey is incorrect, or if there is not sufficient proof of submissions to the state or other agencies listed in Section 3.1 above.

3.3 REPORTING ERRORS, OMISSIONS AND CORRECTIONS

Should you discover an error after submission of the survey, you may submit a revised report. Only submit the pages for which information has changed. Do not resubmit pages for which there are no changes. Highlight or mark in red all corrected information. Mark "REVISED" on each revised page resubmitted. For submission of substances omitted from the original report, do not add the listings to the last page previously submitted. Instead, submit a separate page containing the new listings and number the pages appropriately. Please also enclose a statement explaining the amendments.

TABLE A NJ ENVIRONMENTAL HAZARDOUS SUBSTANCE LIST

Read instructions carefully before using this list.

Sub. No.	Name	CAS Number	DOT No.	Threshold Planning Quantity (TPQ) if below 500 pounds
3175	Abamectin [Avermectin B1]	71751-41-2	2902	
3140	Acephate (Acetylphosphoramidothioic acid O,S-dimethyl ester)	30560-19-1	2902	
0001	Acetaldehyde	75-07-0	1089

Table A, continued

NOTE: Be advised that there are two (2) chemical categories, "Diisocyanates" and "Polycyclic aromatic compounds (PACs)," that are restricted to the chemicals listed under the appropriate heading. If you have more than 500 pounds in combination of any of the listed chemicals, you are to report them under the category heading (that is, do not report the individual chemicals or their CAS numbers). One diisocyanate compound, **isophorone diisocyanate**, is an ECPRA Section 302, Extremely Hazardous Substance and is reportable at the lower threshold of 100 pounds.

* = ECPRA Section 302 Extremely Hazardous Substance. The presence of EHSs in quantities in excess of the Threshold Planning Quantity (TPQ) requires certain emergency planning activities. For further information, contact the Office at (609) 292-6714.

+ = ECPRA Section 302 Extremely Hazardous Substances with a Threshold Planning Quantity (TPQ) of less than 500 pounds. The reporting thresholds for those substances are indicated by the TPQ for the particular chemical.

(S) = Synonym of EHS listed elsewhere on this list.

= Report only those materials with the indicated CAS number.

NOTE: The EHS list is also available by CAS and substance number on the department's web page. The address is: <http://www.state.nj.us/dep/opppc/> click on the Guidance Docs button. If you don't have internet access, please call the Office at (609) 292-6714 to obtain a copy of the list.

NOTE: For substances not listed on Table A and which meet the federal EPCRA reporting threshold of 10,000 pounds, use E312 for the substance number on the Part 2 of the CRTK survey.

Under N.J.A.C. 7:1G, environmental hazardous substances in mixtures such as gasoline or new and used petroleum oil may be reported under the following generic categories:

<u>Substance</u>	<u>Substance Number</u>	<u>CAS Number</u>	<u>DOT Number</u>
Diesel/Fuel or #2 Heating Oil	2444	68476-34-6	1993
Gasoline	0957	8006-61-9	1203
Kerosene	1091	8008-20-6	1223
Petroleum Oil/Motor Oil	2651	_____	1270
Used Petroleum Oil	2851	_____	1270

These substances must be reported if they were present at your facility in 2003 in quantities at or above 10,000 pounds at any one time. Please use the appropriate codes as indicated above. These have been incorporated into Table A to minimize confusion regarding reporting.

TABLE B INVENTORY AND STORAGE CODES

CONTAINER CODES

TA	Above ground tank
TB	Below ground tank
TI	Tank inside building
DS	Steel drum
DF	Fiber drum
DP	Plastic drum
CN	Can
CB	Carboy
SI	Silo
BA	Bag
BX	Box
CY	Cylinder
BG	Bottle or jug (glass)
BP	Bottle or jug (plastic)
BN	Tote bin
TW	Tank wagon
RC	Railcar
OT	Other (Describe)

STORAGE TEMPERATURE AND PRESSURE CODES

PRESSURE

01	Ambient* pressure
02	Greater than ambient pressure
03	Less than ambient pressure

TEMPERATURE

04	Ambient* temperature
05	Greater than ambient temperature
06	Less than ambient but not cryogenic (freezing conditions)
07	Cryogenic conditions (less than -200 degrees C)

INVENTORY RANGE CODES (in pounds)

20	Greater than 10 million pounds
19	1,000,001 - 10 million
18	500,001 - 1 million
17	250,001 - 500,000
16	100,001 - 250,000
15	50,001 - 100,000
14	10,001 - 50,000
13	1,001 - 10,000
12	101 - 1,000
11	11 - 100
10	1 - 10
09	Less than 1 pound

* Ambient means "normal," "surrounding," or "room" conditions

**TABLE C CRTK COVERED NORTH AMERICAN INDUSTRY CLASSIFICATION SYSTEM (NAICS)
CODES WITH EXCEPTIONS AND LIMITATIONS**

Subsector Code or Industry Code	Description	Exceptions and/or Limitations
11	Agriculture, Forestry, Fishing and Hunting	
111998	All Other Miscellaneous Crop Farming	Limited to facilities that reduce maple sap to maple syrup (previously classified under SIC 2099: Food Preparations, NEC, Reducing Maple Sap to Maple Syrup)
113310	Logging	
21	Mining	
211112	Natural Gas Liquid Extraction	Limited to facilities that recover sulfur from natural gas (previously classified under SIC 2819, Industrial Inorganic Chemicals, NEC)

212324	Kaolin and Ball Clay Mining	Limited to facilities operating without a mine or quarry and that are primarily engaged in beneficiating kaolin and clay (previously classified under SIC 3295, Minerals and Earths, Ground or Otherwise Treated (grinding, washing, separating, etc. of kaolin and ball clay))
212325	Clay and Ceramic and Refractory Minerals Mining	Limited to facilities operating without a mine or quarry and that are primarily engaged in beneficiating clay, ceramic and refractory minerals (previously classified under SIC 3295, Minerals and Earths, Ground or Otherwise Treated (grinding, washing, separating, etc, of clay, ceramic, and refractory minerals, NEC))
212393	Other Chemical and Fertilizer Mineral Mining	Limited to facilities operating without a mine or quarry and that are primarily engaged in beneficiating chemical or fertilizer mineral raw materials (previously classified under SIC 3295, Minerals and Earths, Ground or Otherwise Treated (grinding, washing, separating, etc, of

		chemical and fertilizer minerals, NEC))
212399	All Other Nonmetallic Mineral Mining	Limited to facilities operating without a mine or quarry and that are primarily engaged in beneficiating nonmetallic minerals (previously classified under SIC 3295, Minerals and Earths, Ground or Otherwise Treated (grinding, washing, separating, etc, of nonmetallic minerals, NEC))
22	Utilities	<u>No exceptions or limitations</u>
31-33	Manufacturing	<p>Except facilities previously classified in SIC 5131, Piece Goods, Notions and Other Dry Goods (broadwoven converters, piece goods converters except broadwoven converters);</p> <p>5147, Meat and Meat Products (boxed beef);</p> <p>5149, Groceries and Related Products, NEC (processed bottled water manufacturing);</p> <p>5441, Candy, Nut and Confectionery</p>

		<p>Stores (chocolate candy stores preparing on premises, nonchocolate candy stores, preparing on premises);</p> <p>5461, Retail Bakeries (bread, cake and related products baked and sold on premises);</p> <p>5699, Miscellaneous Apparel and Accessory Stores (custom tailors, custom dressmakers);</p> <p>5712, Furniture Stores (custom wood cabinets, custom made upholstered household furniture, custom made nonupholstered wood household furniture except cabinets);</p> <p>5714, Drapery, Curtain and Upholstery Stores (custom drapes, custom slipcovers);</p> <p>5719, Miscellaneous Home Furnishing Stores (manufacturing and selling pottery on site);</p> <p>5995, Optical Goods Stores (optical laboratories grinding lenses to prescription);</p> <p>5999, Miscellaneous Retail Stores, NEC (manufacture of orthopedic devices to prescription in a retail environment);</p>
--	--	---

		<p>7334, Photocopying and Duplicating Services (quick printing);</p> <p>7389, Business Services, NEC (embroidery of advertising on shirts and rug binding for the trade, aerosol packaging, solvent recovery service-contract, tobacco sheeting service, sponging, shrinking, etc., fabric for tailors and dressmakers, batik work);</p> <p>7694, Armature Rewinding Stores (remanufacturing);</p> <p>7819, Services Allied to Motion Picture Production (reproduction of video)</p> <p>8072, Dental Laboratories</p>
42	Wholesale Trade	
423830	Industrial Machinery and Equipment Merchant Wholesalers	Except facilities previously classified in SIC 5084, Industrial Machinery and Equipment (merchant wholesalers)
423840	Industrial Supplies Merchant Wholesalers	
423850	Service Establishment	

	Equipment and Supplies Merchant Wholesalers	
423930	Recyclable Material Merchant Wholesalers	
4242	Drugs and Druggists” Sundries Merchant Wholesalers	
424310	Piece Goods, Notions and Other Dry Goods Merchant Wholesalers	Except facilities previously classified in SIC 5131, Piece Goods, Notions and Other Dry Goods (merchant wholesalers except broadwoven and piece goods converters and merchant wholesalers selling piece goods, notions and other dry goods via retail method)
424340	Footwear Merchant Wholesalers	Except facilities previously classified in SIC 5139, Footwear (merchant wholesalers except those selling footwear via retail method)
4246	Chemical and Allied Products Wholesalers	
4247	Petroleum and Petroleum Merchant Wholesalers
